SKIRT SEALING RUBBER

THEJO

TEL SR-50 SKIRT SEALING RUBBER is a simple, cheap yet effective skirting system that prevents dust and spillage and reduce clean-up and maintenance costs at installations.

It is a pre-moulded rubber sheet made from proprietary formulations of Natural with Synthetic rubber blends. It can easily be fitted to your existing chute walls with the help of a clamping system. Clamping system is not part of the standard supply and can be supplied on request. The skirt rubber is available in many sizes and thickness to suit various working conditions. Standard Sealing strips come in lengths of 10 meter, how ever customized lengths(Max 50 mtr) can be supplied on request.
