

# WARHOG® 50WT & 50W

## Wet Abrasion Resistant Sheets

**WARHOG 50WT & 50W** are wine red coloured sheeting made out of a proprietary rubber composition containing Natural & Synthetic Rubber. These sheets are subject to controlled production parameters from compounding, mixing, calendaring & high pressure molding process. These sheets deliver good properties of impact, strength, cut & tear resistance against slurry handling application. They are formulated in relatively higher hardness so as to take care of impact & abrasion caused while handling coarse particles also. WARHOG is ideal for medium duty application and is a cost competitive version of WARDOG sheets.

### SALIENT FEATURES

- Good properties to combat high Impact & Abrasion of slurry having coarse particle
- Good abrasion resistant values
- Good contour ability
- Knit surface to enhance bonding strength
- Special tacky bonding layer
- Precision moulded and press cured ensures
- consistent dimensional and physical properties.

### APPLICATION

*Slurry handling areas such as:*

- Pipe lining
- Chute lining
- Pump boxes & Tank lining
- Launder lining
- Hydro cyclones
- Hoses etc.

**WARHOG 50WT** has tacky bonding layer to facilitate better bonding results when applied to metal with cold bonding adhesive.

**WARHOG 50W** does not possess tacky bonding layer, but has a knit surface finish to enhance bonding results when applied to metal with cold bonding adhesive.
